

May 14, 1973

PRESIDENT: Your motion, the Chair was trying to decipher this and, and apparently and I'm going to have to take some time here because I understand that in my absence Senator Duis made some motion that I'm not too sure is too clear. Senator Duis now, does the Chair understand that you have made a motion which prevailed that unbracketed everything on general file? In other words, all the brackets on everything on general file are removed? Was that the intent of your motion?

SENATOR DUIS: Mr. President, yes. I realized what was happening but see, we wouldn't be able to get these bills that were bracketed for the 14th, 15th and 17th would never get to general file so I asked this morning for unanimous consent to have those taken off of there, 14, 15th and the 17th in that order and put at the head of general file so now there's no bracket up there on those. Those are on general file in the order in which they appear from the 14th, the 15th and the 17th and then after the 134 on the 17th comes 275 so you can start from there. There's no problem about bracketed bills.

PRESIDENT: Alright, now then. If that be the case then and we're looking at 5--the bills that were bracketed for 5-14 in that particular order on general file, Senator Carpenter has asked that 302 be placed after and I'd like to dispose of that motion now if I could then we'll come back and catch these other--otherwise I think we're going to be lost.

SENATOR CARPENTER: 302 could be controversial. Just leave it where it's at.

PRESIDENT: Okay. You want to leave it alone, you want to withdraw your motion on 302 then for this present time. That was to place it after 563A.

SENATOR CARPENTER: Now what I'm trying to say Mr. President and then I'll sit down. If you want to put these bills that have been selected from this first group, they probably really are non controversial. It would mean probably, from the standpoint of time, we wouldn't consider the rest of them. Now we're talking about the capital budget and those other things and 582 which you could amend in relationship to 259. I want you to understand what you're doing if you adopt this motion. We have to come somewhere to get something done.

PRESIDENT: Alright, now, the Chair understands that Senator Carpenter wants to withdraw his motion relative to LB 302. Are there objections to the withdrawal of that particular motion? Hearing none, so ordered, that motion is withdrawn then. Now does the Chair understand that the next motion now is to place 579--do you want to consider 579, 505 and 582? Alright, then the Chair does not understand your motion Senator Carpenter and I ask you to restate it please. I'm sorry. We had a motion already that we were talking about at that particular time and I should have gone ahead and dispatched that but we launched off into another discussion regarding order. I'd like to get that established if I could. I'm having some difficulty. Senator Marvel.

SENATOR MARVEL: 579, 581, 505, are those bills that should not require any controversy as far as appropriations are concerned. We can take--I, I'm prepared to take these up right now if you'd like.

PRESIDENT: Now is that the motion that you want to take them up right now? Alright. Are there objections to taking those bills up in that order at this time? Are there objections?
